CITY LIBRARY TO GIVE BENEFIT PLAY

MONEY TO BE USED FOR BUYING REFERENCE BOOKS.

BEST TALENT TO ASSIST

Program Being Outlined—Will be Presented During Latter Part May at First M. E. Church.

The city library is planning to give a home talent production the latter part of May for the benefit of the reference book fund of the library. The plans are not fully made yet, but the program as outlined is a clever and entertaining one to be presented by the best talent in the city. For some time the need of new reference books along the lines of history, science and general topics has been serious and there is not enough money in the regular book fund to purchase these books. The books of current fiction are paid for out of the penny per day charge for reading and only the amount which this fund will supply are bought.

The entertainment planned will probably be given at the First Methodist church. The program is being arranged under the direction of Miss Grace Langan, librarian and Miss Kitty Grems, assistant.

The feature of the entertainment will be two short playlets, the first a one-act comedy, "Op-O'-Me-Thumb," written by Frederick Fenn and Richard Pryce, which has been one of the most popular curtain raisers on the stage. The second play has not yet been chosen, but there are two others equally as pleasing as "Op-O'-Me-Thumb," from which the selection is to be made. The plays will be directed by Clarence Cook and the leading parts will be taken by Mrs. F. H. Metzler.

In addition to the plays, the program will include orchestra music, folk dances, vocal and instrumental musical specialties.

GARDNER URGES PEOPLE TO AID LEGION IN CAMPAIGN.

Jefferson City, May 11.—In a statement issued today Governor Gardner calls upon the people of Missouri to assist in every possible way the American Legion in its campaign to increase membership in this state. The governor says:

"The week of May 17 to 22, 1920, having been designated as American Legion Week by that great order throughout the United States for the purpose of conducting a membership campaign, I earnestly request the people of Missouri to render the various posts of the legion all possible assistance in the laudable effort to increase the membership of the order. I am informed that the growth of the American Legion in this state has been phenominal, and I am sure our people are in cordial sympathy with the effort to enlist every Missouri soldier, sailor and marine in this great fraternal, patriotic and non-political order devoted to the principles of Americanism and the preservation of the memory and comradeship of those who served in the great war."

Gen. H. C. Clark, chairman of the state executive committee of the legion, today issued a call to all posts throughout the state asking them to make a special effort to enlist every Missouri solider, sailor and marine, who has not yet joined the order. Missouri now has 311 legion posts, every section of the state being represented and it is desired to make a special effort to have any ex-service men who have not yet joined enter the order.

WHAT EVERY MAN OWES A COMMUNITY

THEME OF TALK BY DR. McKEEN LAST NIGHT.

C. OF C. PLAN OF WORK

Should Make Out Yearly Schedule of Building and Personal Service to Community.

Dr. Harry R. McKeen, community specialist from the St. Louis Chamber of Commerce gave a very interesting talk before the Chamber of Commerce last night at their weekly luncheon at the Bainum Hotel. Dr. McKeen is not altogether a stranger to Maryville having talked here some five years ago on the Chautauqua platform. He talked last night on Community Building and the part a Chamber of Commerce should take in this kind of work. He stated that their was three important phases to the work of any Chamber, namely the program for the year's work laid out so they might clearly see what they have before them to accomplish for the year; adequate funds or sufficient finance, for no Chamber can do their best work or accomplish the most if they were continually handicapped by the lack of funds; and that every Chamber should feel it a vital part of their work to render personal service to the community. He went on to say that every man that lives in, and earns his living from a community should feel that he owes that community a debt, which he can partially pay by rendering his personal service for the benefit of the community. Many men become selfish, not only with their money but particularly with their time and forget what they owe the town or community which has helped them to make practically all they have.

LODGE TO SOUND KEYNOTE AT REPUBLICAN CONVENTION

Committee on Arrangements Chooses Senator as Temporary Chairman.

Chicago, May 11.—Senator Henry Cabot Lodge of Massachusetts, Republican senate leader and author of the Lodge reservations to the League of Nations covenant, will sound the keynote of the coming presidential campaign at the Republican convention on June 8. The committee on arrangements yesterday selected Senator Lodge for temporary chairman and voted to recommend to the convention that someone else be chosen permanent chairman to relieve Mr. Lodge of the strain of directing the entire convention. Four years ago Senator Warren G. Harding of Ohio filled both positions. The committee's recommendations, according to several committeemen, probably will pave the way for the selection of former Senator Albert J. Beveridge of Indiana as permanent chairman.

CHARGES SIMS NEGLECTED PROTECTION OF TRANSPORTS

Investigating Committee Outlines Six Important Particulars in Which Admiral Fell Short.

Washington, May 11.—Protection of lives of American soldiers from German submarines while enroute to France was held secondly to the protection of the British, the sub-committee investigating the Sims charges was today. Sims seemed to accept the view of the British admiralty as superior to anything that would come from America, Secretary of the Navy Daniels charged in outlying six important particulars in which Sims did not measure up to expectations during the conduct of the war. He urged the view of the admiralty even when the navy proposed plans that proved more efficient. He placed the protection of merchant shipping with concentration of destroyers at Queenstown as main operating forces abroad. "Failing to appreciate that the protection of transports carrying troops to France was the paramount naval duty until I felt impelled to cable him such was our main mission," Secretary Daniels declared.

THE REV. MR. ROELOFSON SPOKE AT COLLEGE ASSEMBLY.

WHAT SENATOR LODGE SAID IN 1918

HE SAID THEN IT WOULD BE A "CRIME" TO NEGOTIATE PEACE

EMBARRASSING TO G.O.P.

No Stronger Argugment Against Knox Resolutions Than That of Lodge of Over a Year Ago.

Washington, D. C.—Indicating that there will be many days wasted in debate, such as marked consideration of the peace treaty in the upper chamber, the Senate Began discussion of the Knox separate peace resolution with a speech by its author of some 25,000 or more words.

Senator Knox consumed columns of the Congressional Record attempting to prove the Constitutionality and effectiveness of his resolution to declare the war at an end and establish peace. Democratic speakers assert the resolution is neither constitutional nor effective, and that peace may only be established by tht negotiation and ratification of a peace treaty.

One of the embarrassing things Senate Republicans must face all through the peace resolution debate is a statement made by the G. O. P. floor leader in December, 1918, long before the party had decided to offer a "peace resolution," as a substitute for a regularly negotiated treaty. At that time, Senator Lodge probably never believed his words would arise more than a year lattr to dispute the Republican contention that it is possible to make peace separately by resolution.

But the Administration forces have called attention to a statement by Senator Lodge, now leader of the Senate majority, wherein he asserted that it would be a "crime" to negotiate a separate peace.

Writing in the Forum magazine in December, 1918, Senator Lodge said: "The President who delivered the war message and the Congress who voted for war would be guilty of the blackest crime if they were willing to make a peace on the status quo ante bellum, and recreate the situation which existed before the war. If we send our armies and our young men abroad to be killed and wounded in northern France and Flanders with no result but this, our entrance into war with such an intention was a crime which nothing can justify. The intent of Congress and the intent of the President was that there could be no peace until we could create a situation where no such war as this could occur. We cannot make peace except in company with our allies. It would brand us with everlasting dishonor and bring ruin to us also if we undertook to make a separate peace."

No stronger argument, perhaps, against the Knox peace resolution will be offered by Democratic opponents of the measure than that furnished more than a year ago by Senator Lodge himself. Senator Lodge said he would be dishonorable to attempt to make a separate peace with Germany and that peace could only be made by the United States in company with the Allied nations. Democrats have only to call attention to tht fact that the Senate refused to ratify a peace treaty approved by the allied nations and that the majority party now offers as a substitute the separate peace which the leader of that party so vigorously assailed before the rejection of the peace treaty.

There is considerable speculation as to how Senator Lodge will urge the Chicago convention to endorse the Republican course in the Senate, from rejection of the treaty to consideration of the Knox resolution, without unqualfiedly repudiating his position of December, 1918. These utterances by Senator Lodge respecting the iniquity of a separate peace are causing considerable worry in Republican quarters because the Democratic opposition is claiming that the President needs no better reason for vetoing the Knox resolution than that set forth by the Republican chairman of the Foreign Relations Committee which reported that resolution out.

TO ESTABLISH A PROVISIONAL GOVT.

IT IS EXPECTED GOVERNOR HUERTA WILL BE PRESIDENT.

REPORTS OF CARRANZA

Washington Without Confirmation as to His Capture Nor Report of His Execution.

Washington, May 11.—Establishment of the provisional government by the Mexican rebels is expected within a few days, according to the revolutionary agency here. Governor Huerta of Sonora is looked upon as the most likely candidate for president.

Conflicting reports here as to the effect of the whereabouts of Carranza but the agency gave little credit to the report that Carranza had escaped and was again on his way to Vera Cruz. All reports here indicated Carranza is in the hands of rebels and will be taken back to Mexico City and permitted to leave the country after it has been asserted the treasury has not been depleted.

Incomplete reports here show only Yucatan, Campeche and Chiapas are still to declare in favor of the revolution.

Proceeding with the utmost caution and with the dispatch of the Oklahoma off Key West, the Texas and the presence of several destroyers along both coasts of Mexico, it is believed the safety of Americans in Mexico is assured.

Confusion as to the fate of Carranza is greater today when it was learned the state department had no confirmation of his capture nor no report of his execution. It is understood there will be a discussion of the Mexican situation at the cabinet meeting to be held this afternoon.

Payler and small daughter, Elinor Louise, of Colorado Springs, Colo. and Rev. R. H. Reolofson of Chicago. The Paylers are house guests of Mr. and Mrs. Wells arriving last night for a visit.

Open Session.

One of the finest collection of hand craft ever exhibited in Maryville was on display at the open session of the Arts and Crafts department of the Twentieth Century club held this afternoon at the home of the chairman of the department, Mrs. Elmer Fraser, 325 East Third street. The display had a fitting background of crab apple blossoms and wood flowers which were profusely and artistically used in decorating the Fraser home. The exhibit consisted of many reed baskets, lamp shades, trays, beautifully made crochet pieces, embroidery work, cross stitch embroidery, paintings, oil and water colors and all manner of artistic pieces of hand craft. With the exception of a few pieces, all the articles were made by members of the department. A delightful program consisting of music and readings namely a paper on "Oriental Rug Lore" which the department has been studying the past year, was given by Mrs. C. C. Corwin. Mrs. Frank Cummins gave a pleasing vocal solo, Mrs. C. G. Stiesmeyer and Miss Ruth Bookman readings. Following the program, tea were served. A large number of the club members attended the meeting. The greater part of the work displayed was made during the regular sessions of the club. Much of the work showed unusual ability especially in the line of modeling and designing the articles and in their originality. Besides being instructive and showing the work accomplished by the department, the tea held this afternoon was one of the most enjoyable affairs which has featured the club life of Maryville this year.

IMMEDIATE DELIVERIES ON

DODGE BROTHERS MOTOR CAR

By persistent effort on our part, we have been fortunate to secure a carload shipment of DODGE BROTHERS MOTOR CARS from the factory which we will receive within the next few days. For a while it looked as though we wouldn't get another shipment until July, but we have been exceedingly fortunate in securing this shipment. There are a few more cars in this shipment than we have already sold or guaranteed delivery on. So for a short time we can offer IMMEDIATE DELIVERY on a few Dodge Cars. If you want one of these you had better see us at once, because we can't tell when we will be able to get more cars. Because of their reputation for economy and endurance Dodge Brothers Motor Cars have created a popular demand which the factory has been unable to supply. You had better get yours while you can.

DEPARTMENT URGES FARMERS TO PRODUCE INFERTILE EGGS.

With the approach of warm weather, the United States Department of Agriculture has issued a bulletin urging farmers to produce infertile eggs. The government pamphlet points out that eggs of this character are worth more money and adds a number of other instructions for increased production and less spoilage. It follows:

"To Egg Producers: Do you know that your eggs will be worth more money if you—

1. Produce infertile eggs by removing the roosters from the flock in the summer time?
2. Provide clean nests and keep eggs clean?
3. Do not wash eggs?
4. Gather eggs twice daily during the summer, to prevent them from being heated by the hen?
5. Keep them in a cool, dry place, away from flies?
6. Market them at least twice each week?
7. Insist that they be bought on a quality graded basis."

Egg values show but little change, except that eggs indicating the effect of warm weather are discriminated against in the larger markets and sell at some discount. It is important that eggs be gathered daily and marketed frequently.

The movement of live poultry from the farmers is increasing although markets are still short of current requirements and prices are well sustained.

Many communities are now preparing for the yearly "Swat the Rooster Week," which has now become an annual event in most states. It should be remembered that roosters are not necessary for egg production and that the production of infertile eggs during the summer months adds to the keeping qualities and results in better prices.

Receipts of cream show some increase during the week, due to better pasturage. This has resulted in lower values on butter in the principal markets of the country. Conditions seem to indicate somewhat lower prices as production increases. —Produce Review, Prepared by Swift & Co., U. S. Yards, Chicago, Ill.

BIG CROWD SEES FIRST SHOW ANGELL'S COMEDIANS.

Last night a big crowd greeted the Angell's Comedians in their big tent on the Kelly lots to see the first show of the week's engagement which this company is giving in Maryville this week. Some good shows are scheduled for the week and no doubt the tent will be crowded on other nights as they are a popular crowd.

Tonight will be given "My Friend From Arkansaw."

LEWIS BROS. BUY THE BRADDYVILLE ENTERPRISE.

Stuart and Edwin Lewis of the Burlington Junction Post has purchased the Braddyville Enterprise of A. P. Salgren, who is publisher of the Page County Democrat at Clarinda, Iowa.

It is the intention of the new owners to give the people of Braddyville the very best paper within their power to publish. For the present it will be necessary to publish the paper at Burlington Junction, as the Enterprise equipment must be subjected to some overhauling before it will be in shape to secure the best results. Then, too, the office at Burlington Junction is very short of help just now and a man cannot be spared right away to come to Braddyville.

However it is the intention that one of the new owners will move to Braddyville just as soon as is possible, perhaps by the first of June, or soon thereafter, and will remain here permanently.

There are three of the Lewis brothers two of whom are now at Burlinton Junction, engaged in the publishing of the Post. The third brother is teaching school and will be "out of a job" in about a month. He has decided to quit teaching and enter newspaper work permanently.

THE UNIVERSAL CAR

The Ford Model T One Ton Truck is in reality a necessity to the wide awake retail grocer, not only for the economic solution of the delivery problem, but for the bringing of goods from the docks or stations to his place of business, and for traversing the country and bringing in produce. For years the Ford One Ton Truck with its splendid manganese bronze worm-drive, powerful Ford Model T Motor, strong Vanadium steel frame, has been serving in every line of business activity, and we have yet to hear the first complaint as to rear axle trouble or motor trouble. It has the lowest purchase price on the market, and the cost for operating and maintaining is exceedingly small. In fact, the Ford One Ton Truck has become a business necessity. Leave your order with us without delay. We will give you prompt attention and assure you reasonably prompt delivery, and give you an after service that will insure your continuous operation of the Truck.

This Trade Mark Represents Threaded Rubber Insulation

This Still Better Willard is the only battery which has Threaded Rubber Insulation.

Every battery has to have some sort of insulating material between the plates inside the cells. This is in order to separate positive plates from negative to prevent the active material from coming into contact and causing short circuits, which would ruin the battery.

The superiority of Threaded Rubber is in its durability. It lasts as long as the plates. Ordinary insulation does not. It wears out and has to be renewed.

Re-insulation is never wholly satisfactory, even if the plates are found to be uninjured, but often we find that they have already been damaged.

Why wasn't an ideal material like rubber used before? It was—but was never found practical for general adoption in starting and lighting batteries till Willard found how to make it *porous* by piercing it with tiny threads. Thus the acid solution can extend *through* the insulation, allowing free passage of current.

Any Willard Service Station will be glad to explain in detail.

No other battery has this "armor plated" protection against insulation troubles. Therefore be sure of the trade mark.

A Bank Account For Your Children

Every Boy and Girl in Nodaway County ought to have a bank account. Starting a savings account when young and building it up a litttle at a time out of the pennies and nickles that come to childhood will soon give them something to be proud of and will make a foundation for a substantial account in later years.

Forming the saving habit in early life may mean their financial independence.

Start them a savings account in a good savings bank paying semi-annual compound interest and let them watch their money grow.

POLITICS AS A DUTY.

At the opening of the sessions of the Executive Council of the American Bankers Association in Pinehurst the other day the president of the organization urged bankers to take a greater interest in the selection of men for public office, and emphasized the need of tax reform, a budget system for governmental expenditures and the encouragement of foreign trading corporations. At Atlantic City on the previous day, speakers at the meeting of the Chamber of Commerce of the United States called attention to unjust laws and the necessity of economy and efficiency in government.

At both gatherings the spokesmen of the organizations in question touched upon one of our weaknesses as a democracy. Without knowing it, perhaps, these men are largely responsible for the condition of affairs which they so earnestly deplore. They have failed to exercise their rights and their responsibilities as voters. They are not alone in this. It is not a class failure by any manner of means. It exists in every grade and condition of society. We are forever starting movements and forever failing to do the simple thing that is absolutely essential if we are to have a representative government.

In this city, for instance, we are repeatedly having the spectacle of tens of thousands of citizens failing to exercise the right of franchise. It is a shame and a disgrace, but constant reminders do not have the slightest effect. It is the duty of every person who has the right to go to the polls. More than that, it is the duty of voters to be intelligently informed on the questions of the hour. Are they so informed? It is very doubtful. The place to begin taking an interest in politics is at the primaries. We are now on the eve of selecting the next President of the United States, and yet at the primaries in New Jersey scarcely half of the voters took the trouble to go to the polls to record their choice for that exalted position.

We hear much growling and grumbling about the conduct of our public affairs, but the man who will not muster up enough energy to vote has no moral right to complain. If he fails to act this year he should forever after hold his peace.—Philadelphia Inquirer (Republican.)

INSURANCE MAN TELLS OF FRIEND'S RECOVERY.

"He suffered considerably from gas in stomach and colic attacks, and at times was very yellow. His doctors diagnosed his ailment as gall bladder trouble and that an operation was necessary. Some one persuaded him to try Mayr's Wonderful Remedy. Since taking it one year ago he tells me he has been able to eat anything." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Maryville Pharmacy and all druggists.—Adv.

It cost $5,028,176,000 to run the government for the first nine months of the fiscal year, and taking this as an average, treasury officials said that total government expenditures for the twelve months' period ending June 30 next would reach approximately $6,750,000,000, or nearly $18,000,000 a day.

There were 227,259 motor trucks produced in the United States in 1918, as compared with 25,374 in 1914.

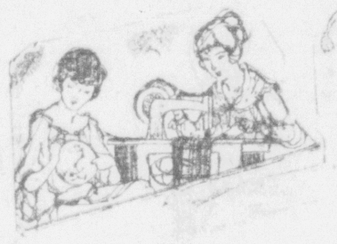
McCall Patterns give you New York and Paris fashions and with them it is easy for any woman to make her clothes and her children's clothes at savings that are more than worth-while.

It is one thing to indulge in sweeping promises and quite another to be specific and definite. Today, in this page ad inaugurating our big Home-Sewing Week we submit prices and we show how it is possible with the aid of a McCall Pattern and a little of your time to produce beautiful garments breathing the refinement of Paris at tremendous savings. This is the time that the question of Spring and Summer clothes are uppermost in your mind, and the problem of ways and means of providing what you need and want presses for solution. This Home-Sewing Week will solve the problem.

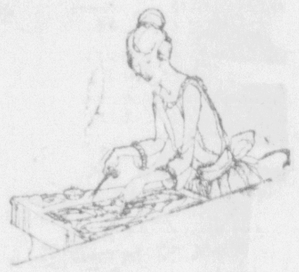
"Home Sewing Week"

Begins Wednesday, May 12th



McCALL'S MAGAZINE
15c the Copy.

We doubt very much if our stocks of dress goods will be as large and complete again this season as at the inauguration of this sale.



McCall Patterns are style right, they fit right, and they are easy to use. For more than 50 years American women have been making their clothes guided by McCall Patterns.

At this period we formally display the newest and most fashionable weaves the silk, cotton and fabric makers have to offer.

Quite in line with our principle of providing things that are most wanted at the lowest possible prices we have inaugurated this important event which features everything in it for making the Spring and Summer wardrobe, inside and out, from the silks and muslins to the thread to make them up. It is an event worth while as the offerings on this page will show. And never since women commenced to use the needle has it been possible to pay yourself as big a salary for making your own clothes. Home-Sewing Week is to demonstrate the advantage of making your own garments.

There is a Wonderful Saving Possible by the Use of McCall Patterns and a Little of Your Time

MATERIAL FOR SUMMER BLOUSES HERE IN PROFUSION.

While Georgette is easily the most popular material for the dressy blouse, and we are showing a wonderful variety of both plain and figured Georgettes, still we have a beautiful showing of crepe de Chines, pongees, satin, figured voiles and a variety of suitable cotton material.

By making these blouses with the aid of a McCall Pattern it will be possible for you to have so many more blouses for what you would ordinarily spend.

Georgette Blouse No. 9381

Requires 1½ yards of novelty Georgette at $5.00 a yard and four silk tassels at 75c each. This blouse can be made for less than $10.50, and this is much less than what it would cost you would you buy a ready-to-wear. McCall Pattern No. 9381, 25c.

Crepe de Chine Overblouse No. 9418

This is one of the latest slip-on models, lacing at the belt. It requires 2 7-8 yards of flesh, biege, or French blue crepe de Chine at $3.00 a yard and three yards of novelty grosgrain ribbon for lacing at 15c a yard, McCall Pattern No. 9418, 25c. This overblouse can be made for less than $10.00.

9390 9402 9397

Ladies' Eton Dress No. 9399

This design requires 3½ yards of 36-inch navy blue French serge at $3.50 a yard, ⅝ yard of black satin for the front blouse section at $1.50 a yard, 1 piece of soutache braid for the embroidery, 75c, and you have a smart model for surprisingly low cost of about $15.00. McCall Pattern No. 9399, 25c; embroidery pattern No. 1022, 25c.

Ladies' Raglan Dress No. 9402

This very attractive model requires 3½ yards of 36-inch voile at $1.50 a yard, McCall Pattern No. 9402, 25c; the total cost of everything necessary to make this dress will not exceed $6.50.

Ladies' Gingham Dress with Chemisette No. 9397

Requires 6 yards of Tissue Gingham at 75c a yard, with ⅝ yard of organdie for chemisette at 69c a yard. McCall Pattern No. 9397, 25c. You can make this very charming gingham gown for less than $6.75.

9354 9160

HOME-SEWING WEEK SHOULD MEAN A NEW COAT OR SUIT FOR YOU

Our showing of materials for coats and suits for Spring and Summer is most extensive and we urge you not to let home-sewing week pass without planning a new coat or suit, as perhaps there is no other article of your wearing apparel on which the saving will be so marked.

The materials particularly suitable this season are wool velours, polo cloth, wool chevron, Scotch tweed, storm serges and a host of other fabrics. Below we give you an idea of the cost of making these three charming models.

Raglan Coat No. 9166

This is a general utility coat, one absolutely indispensible to the wardrobe. Requires for size 36, 3 1-2 yards and can be made from wool velour, costing $6.50 a yard; McCall Pattern No. 9166, 25c. This garment can be made at home for $24.00 and it would be a difficult matter to secure its equal ready-to-wear.

Ladies' or Misses' Sport Coats No. 9354

This sport coat is one of the most popular models of the season and for 36-inch length can be made of 54-inch polo cloth at $6.50.

Ladies' Sport Suit No. 9375 9367.

This suit is adapted for so many uses that every woman's wardrobe should contain at least one suit of this model. Made from all wool suiting tweed 54 inches wide, it requires 3½ yards of material at $5.00 a yard, and the lining for the coat requires 2½ yards of figured sateen at $1.00 a yard, McCall Pattern No. 9375 25c—coat, 9367 20c—skirt. You can produce this model for about $20, and you are sure of the correctness of the style when you use a McCall Pattern. You are sure of the material when you buy it from our piece goods department.

PERCALES, CHAMBRAYS AND GINGHAMS

are best adapted for slip-on overalls, dress aprons and tie-on house dresses. It is possible for you to make these garments at home at a tremendous saving by visiting our piece goods department and securing your material at this time. McCall patterns for any of the above numbers are 25c.

THE LINEN DIVISION CONTRIBUTES TO HOME-SEWING WEEK

What is more charming for little girls than dress linene? We are showing a very superior quality 36 inches wide at 85c a yard.

Little Girl's Dress No. 9434

Can be made from 3¼ yards of 36-inch linene at 85c a yard. This model closes on the shoulders, has bloomers, buttoning to the underbody. McCall Pattern No. 9434, 25c. This all linene dress can be produced for $3.50.

We suggest that you ask to see samples of our mercerized batiste from which you can reproduce this garment for $2.39.

McCALL PATTERNS FOR CHILDREN ARE ALWAYS ATTRACTIVE

During Home Sewing Week you will find that we have made especially attractive showing on ginghams, chambrays, poplins, and voiles.

Little Girl's Coat of Broadcloth No. 9154.

This 8-year model requires 1¾ yards of Velour at $6.00 a yard, 2 3-8 yards of figured sateen for lining at $1 a yard. McCall Pattern No. 9154 25c. For less than $11.00 the little lady's spring wardrobe can be greatly beautified by this charming Spring coat.

9154 9158 9379

Little Girl's Gingham Dress No. 9158

8 year size requires 3 yards of 32-inch gingham at 45c a yard, ⅓ yard of poplin for collar and revers, McCall Pattern No. 9158, 20c. The little lady will have a beautiful dress for less than $2.40.

Little Girl's Dress No. 9379

Very charming when made of 3 yards of 27-inch white poplin at 45c a yard, embroidered in a contrasting shade of delft blue and a ribbon sash and this admirable frock for any 8 year old miss can be made for $2.25, including McCall Pattern No. 9379 at 25c.

BIG SAVINGS CAN BE EFFECTED BY MAKING SHIRTS FOR YOUR MEN FOLKS

We are showing madras, percales, ginghams and a wonderful variety of silk shirtings, and with the assistance of a McCall Pattern you will find it easier to make a shirt than a shirtwaist. McCall's shirt patterns are designed by men for men; plenty of room, a delightful sense of freedom, and the saving will be a revelation to you.

Men's Shirt No. 5645.

Comfortable men's shirts for summer can be made from 3 yards of madras at 36c a yard, McCall Pattern No. 5645, 20c. This shirt can be made at home for $2.75 and it would cost twice this amount in any haberdasher shop.

Men's Shirt No. 7909

With pockets and collar attached. This is a great shirt for playing golf, for hunting and for out-door life. Can be made of either flannel for heavy wear, or madras for office wear. Requires 3¼ yards of 36-inch material, McCall Pattern No. 7909, 25c. The shirt can be made at home for about $3.50. Ask for samples of our material and compare them with the shirts ready to wear and you will see the enormous saving.

Boy's Shirt Blouse No. 6420

Adjustable collar, with or without yoke. For eight year size requires 2 yards of 36-inch percale at 45c a yard, McCall Pattern No. 6420, 15c. You can make this garment at home for less than $1.50.

The "Cordica" Sport Coat

has only 1 seam, can be made in ½ hour's time from 2¼ yards of 27-inch material. You can produce a beautiful coat with material from our dress goods stock for from $7.50 to $10.00. Isn't this wonderful saving worth while? We will be glad to demonstrate this pattern for you. McCall Pattern No. 9435, 25c.

9377

9347

FOULARDS AND SATINS USED IN COMBINATION ARE VERY POPULAR

Ladies' Tunic Dress No. 9377

Requires 2⅞ yards of figured foulard for the blouse and tunic at $4.00 a yard; 2 yards of plain satin for underskirt, cuffs and vest, McCall Pattern No. 9377, 25c. It is possible to make this dress at home for less than $15.00 and when you are finished with it you will agree with us that it will be worth several times this amount of money.

Afternoon Frock No. 9347

This is a reproduction of a wonderful Parisian model and it is very charming when made from 4 yards of black costume satin at $1.50 a yard, 1 black silk cord girdle at $2.00, McCall Pattern No. 9347, 25c; and with a little of your time you can reproduce this beautiful model from Paris for less than $22.00

Pongee Sport Blouse No. 9416

This is a very popular model for the out door girl; requires 1¾ yards of silk pongee at $6.00 a yard, ½ yard of brown satin for the collar and tie at $3.50 a yard, McCall Pattern No. 9416, 25c; and this beautiful sport blouse can be made for less than $7.50.

Dress Blouse No. 9277.

This is a very handsome model for a dressy blouse with chemisette. It requires one yard of 36-inch satin at $2.50 a yard, and ¼ yard of net for the vest at $1.00 a yard. McCall Pattern No. 9277, 25c. This very attractive blouse can be produced for $4.00. It requires a very little time to make.

Overblouse No. 9415

Another slip-on model that is very attractive requiring 1⅝ yards of taffeta at $3.50 a yard and two tassels at 75c each, McCall Pattern No. 9415, 25c. This blouse can be produced for less than $9.00 if you will make it yourself.

PRESIDENT WAS NOT SATISFIED WITH GREAT BRITAIN POLICY.

Washington, May 11.—The President was not satisfied with the manner in which Great Bratain was conducting navy warfare when the United States entered the war. This fact was brought out by the Secretary Daniels today before the senate committee investigating the charges by Sims against the conduct of the navy department. For the first time the speech of the President to the officers of the Atlantic fleet at Yorktown, Va., in the summer of 1917 was made public when Daniels read it to the committee today. Speaking of the campaign against the submarines the President said: "Everything I have suggested anything to the British admiralty the reply come back amounting virtually to this, that it had never done that way and I felt like saying 'well nothing is ever done so systematically as nothing is being done now.'" Secretary Daniels quoted the President as saying.

Mrs. Amanda Oberlander spent Sunday at the home of her father, J. M. Stephenson, living east of Maryville.

Used to It.

"Ain't these new tenements small, though?"

"Huh! You'd ought to see ours. It's so small I've been sleeping with the dog for two weeks!"

"Gee! that's fierce. Kind o' hard ain't it?"

"Oh, no! He's used to it now!"—The Stars and Stripes, Washington, D. C.

MODERATE RECEIPTS LIVE STOCK PRICES GENERALLY HIGHER.

Shippers profited by the mistake they made last week when they grouped their offerings in the first two days of the week, and this week found the opening run moderate, with indications of a more equal distribution throughout the week. Trade in cattle opened early at strong 25 cents higher prices, hogs were strong and sheep were strong to 50 cents higher.

TODAY'S RECEIPTS.

Receipts today were 9000 cattle, 16,000 hogs, and 5000 sheep compared with 15,000 cattle, 16,000 hogs and 20,000 sheep a week ago, and 15,200 cattle, 19,550 hogs, and 13,500 sheep a year ago. Today's receipts came from a rather wide scope of territory and included increased offerings from Texas, and a few consignments from Arizona, New Mexico and Utah.

BEEF CATTLE.

With lighter total receipts, and an increased number of stockers and feeders, the supply of beef cattle today was materially short of a week ago, and a year ago, and after the first canvass of the supply, killers traded freely in beef cattle at strong to 25 cents higher prices than the close of last week. The big drop in prices that occurred last Monday and Tuesday has about disappeared, and indications are for more settled conditions in the trade. Yearling steers sold readily top $13.00, and stronger weights brought up to $13.15. Most of the offerings were medium weight steers that brought $11.50 to $12.50. Cows and heifers and veal calves were strong to 25 cents higher.

STOCKERS AND FEEDERS.

Trade in stockers and feeders was active with prices firm. Demand was largely for 700 to 900 pound steers for grazing. Practically no cattle are going out to be fed grain or grass.

HOGS.

Trade in hogs opened slowly at steady prices and closed 10 cents higher and active. Shippers top on the close $14.80 and the bulk of the offerings and at $14.00 to $14.65. Good medium weight hogs are bringing best prices from packers, while shippers still favor the higher weights.

SHEEP AND LAMBS.

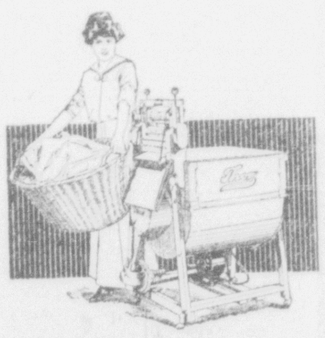
Sheep prices were 50 cents to $1.00 higher, and lambs 25 to 50 cents up. A band of Arizona springs sold at $19.75, compared with $19.50, extreme lambs brought $20.25, and old lambs top last week. Some fed wooled $18.00. A bunch of 2,000 Texas grass fed wethers sold at 12.00 or $1.25 above the top price last week.

HORSES AND MULES.

Receipts showed an increase, owing to improved shipping conditions. Demand was active and prices firm.

CHARLES M. PIPKIN,
Market Correspondent.

Mrs. Rodney Hamblin went to St. Joseph this morning to spend the day.



Your Thor washer has arrived. We received a shipment of three of these Thor machines and at the rate they have been selling recently this lot will not last long. The Thor machine, of which there are many here in Maryville has been sold by us for twelve years and some of the first machines are still giving service.

The Thor washer uses the principle of cylinder washing which is used by all commercial laundries and while many new ideas have been tried the commercial laundry still adheres to this principle. We not only sell you a washing machine, but you have service and repairs no further away than your phone at all times.

Terms if desired.

Do Your Tires Wear Out or Blow Out?

About 90 per cent of fabric tires blow out from stone bruises or road shocks before the thread is worn off.

FIRESTONE CORD tires are constructed of layers of cord, lying diagonally accross the tire; each layer is imbedded in a heavy cushion of pure rubber.

These tires absorb, without injury, the shocks of the road.

Firestone cord tires are guaranteed 8000 miles. Their mileage is much more. —All sizes 30x3½ to 36x6.

We have cut open samples of tires to show you the different methods of construction.
